

MINDXBRIDGE ESTABLISHMENT

Your Research Incubator and Publication Pipeline

We take you from a blank page to a submitted paper, with mentorship at every step.

WHERE WE ARE TODAY

4

new research projects opened every month

6 weeks

from first session to a finished manuscript

12

papers currently under review

01

The Six Week Mentorship

You learn research by doing it on a real paper, not on a case study.

Four new projects open every month, across the specialties our community asks for. You join the one that fits you.

Week 1

Week 2

Week 3

Week 4

Week 5

Week 6

One live session every Saturday, for six weeks.

HOW EACH WEEK RUNS

- A live session every Saturday.
- Homework after each session, one to two hours at most.
- The workload is distributed and structured, so it fits around clinical duties.

WHAT YOU ACTUALLY LEARN

- The fundamentals of research method, taught from the ground up.
- Every concept is applied straight to your own manuscript that same week.
- You finish holding a paper, not just notes.

02

What You Walk Away With

The cohort fee covers more than the manuscript.

Finish the six weeks and these come with it, at no extra cost.

Conference ready poster

Built from your own project and ready to submit to conferences.

CV service, free

Our residency ready CV service, included with the programme.

Poster coaching, free

One to one mentorship to prepare you to present, at any conference, anywhere in the world.

Lifelong community

Ongoing access to the network, future projects, and the chance to lead your own.

It is a complete approach. We take you from zero to published, then help you present the work.

03

Services Beyond the Cohort

Available to anyone, whether or not you join a project.

Manuscripts and writing

- Proofreading
- Academic editing
- Plagiarism and AI reduction
- Journal cover letters
- Reviewer response editing

Formatting and submission

- Manuscript formatting
- References clean up
- Similarity and AI reports
- Internal peer review

Statistics and methods

- Statistical analysis package
- Power and sample size
- Database article search
- Research consultations

Figures, posters and slides

- Graphical abstracts
- Conference posters
- Slide deck design

CV and Career Services

A residency ready CV aligned to SCFHS, CaRMS and ERAS standards, plus a one to one CV and LinkedIn session with our HR recruitment specialist.

04

Be Part of the Next Cohort

We are early, and that is exactly why it is worth joining now.

12

papers currently under review, with more running through to the end of the year

- We are a new company, and we are moving quickly.
- Four new projects open every month, in the specialties our community requests.
- Every project is ethical and transparent, with no ghost writing and full authorship visibility.
- We would like to be part of your journey and help you get published.
